

## Tutorial 5

### CSC2005/ICT2102 Human Computer Interaction

#### Question 1

- (a) What are the main constraints of mobile platforms?
- (b) Explain how to overcome mobile resource constraints, using HCI design principles and examples.

#### Question 2

- (a) What is the difference between a predictive and descriptive model in HCI? Why is it useful in the field of HCI?
- (b) Explain Fitts' Law using the equation. What are some implications of Fitts' Law? Explain with some examples.
